

# GET NOTICED EVERYWHERE

WEBSITE SOLUTIONS BY MOSARO

## GET MORE CUSTOMERS WITH YOUR HIGH IMPACT WEBSITE

Get more customers with a high impact website designed to get high exposure on the internet for your target audience and industry, and get high trend and fan following on social media.

MOSARO website solutions use the latest modern web design trends designed to promote your business as a high impact billboard on the internet that can automatically resize on any desktop, smartphone and tablet.

MOSARO website solutions make your business popular and build a fan base by automatically displaying your live photo/video and post feeds from your social media sites (facebook, twitter, instagram, etc).

## High Impact Website

MOSARO websites are designed to attract customers by using the latest web design trends that use beautiful full page visual (image) layouts and smart marketing text to captivate and motivate your audience.

## View from Anywhere

MOSARO websites can be viewed anywhere by automatically resizing (responsive web design) on any desktop, smartphone and tablet device.

## Be Popular on Social Media

Make your business popular and trendy by automatically displaying your live photo and post feeds from your social media sites (facebook, twitter, instagram, pinterest, etc) on your website, and allowing your web content to be shared on your customer social media sites.

## Optimised for Search

Be easily found on the internet and social media with your key search words using the built in Search Engine Optimised (SEO).

## Get in Touch

Allow your customers to easily contact you with a built-in contact form that allows customers to send you messages and upload content directly from your website

## Easily Managed Website

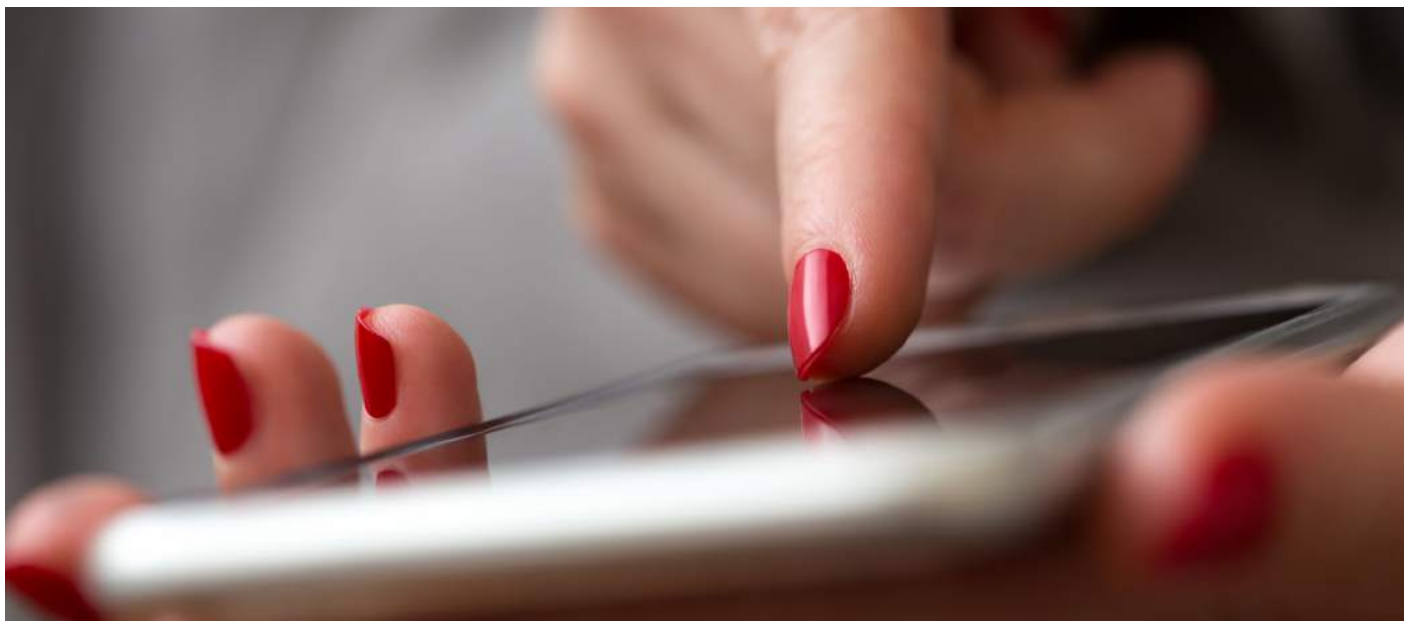

Easily create, change, and remove your web page content (images and text) pages with the built in robust content management system (CMS).

## Focused Marketing

Market your promotions to your customers with the built in newsletter service that allows new customers to register to your newsletter online and you to create and send stunning email newsletters.

## Analyse to Improve

Monitor your website performance and get customer insight with built-in web analytics dashboard to analyse your web and customer traffic from Google and Bing.
